

Usutu Forest School

Homework

Homework in our school follows an alternate model and children are asked to be responsible, self-disciplined and show effective time management up to Grade 7. No written homework in content subjects is sent home however research and projects are expected to be worked on at home. Grade 5, 6 and 7 will be given a mathematics worksheet from Monday to Thursday in order to consolidate a section done in the classroom. Spelling lists are sent home every Monday in preparation of the Friday spelling tests. Reading is a vital component of our homework policy and all reading cards must be meticulously recorded and checked by parent's everyday.

High School homework is sent home daily and a roster is issued to the learners at the start of each cycle.
